

English Translation for haskama

Rabbi Moshe A. came before me showing me the fruits of his labor.

The **Glow Go** is a device whose purpose is to bring light into the homes of **Am Yisroel** on Shabbos and Yom Tov. I confirm that I examined this device and found it permissible to use on Shabbos Kodesh. There are no prohibitions of **muktzah** or **malacha** in using it. I say that it is a good device!

We should soon merit to what is written, **“a new light on Tzion will shine and we will all merit to its light.”**
